我的文档

●产品介绍

我的文档帮助你在 iPhone 或 iPod touch 上存储、管理和查阅文件。无需在电脑安装任何软件,就可以将我的文档与电脑相连,就像一个共享文件夹一样随时随地查看、上传和下载你需要的文件,与朋友一起分享。

- 我的文档支持创建新文件夹,创建文档,照相、录像,及从本地库中添加照片、视频。
- 我的文档支持多种文件格式的查看和播放,支持文件的搜索功能。
- 我的文档支持多文件的管理操作,如:删除、移动、 复制、压缩和解压缩、发送邮件。
- 我的文档提供了内置浏览器和下载管理器,浏览网站,并且下载您需要的文件。
- 我的文档可以与电脑同步文件。将电脑与我的文档 连接到同一个无线局域网中,在文件资源管理器或 浏览器的地址栏中输入我的文档自动生成的 http 或 ftp 的链接地址,即可访问我的文档中的文件。
- ■我的文档支持网页、图片、文档的打印功能。将电

脑和打印机相连,再将 iPhone 或 iPod touch 和该电脑连接到同一个局域网中,我的文档就可以打印了。

■ 我的文档支持二维码识别,通过摄像头识别出二维码的隐藏信息,直接访问相应的网站或下载相应的文件。

●连接

总述

在有无线局域网的情况下,我的文档会自动生成分别对应 ftp 和 http 两种服务的网络地址,通过任意一种服务就可以同步和管理其中的文件。

您可以将我的文档连接到任意一台电脑上面,您所要做的就是将您的 i Phone 或者 i Pod 与您的电脑连接在同一个局域网中,下面提供了两种操作系统示范,Mac OS 和 Windows。

配置无线局域网

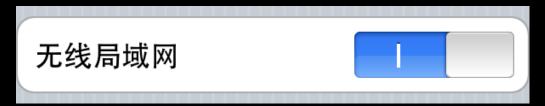

点击设置按钮。

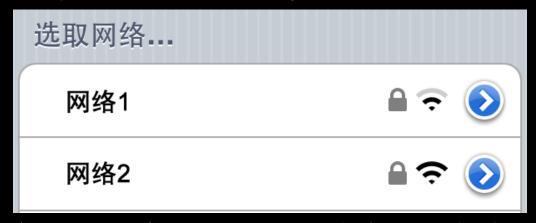

点击无线局域网。

打开无线局域网开关

选择您想要连接的网络。

如果您连接上无线网,您会在我的文档的状态栏中 看到 ^令 图标。

现在您可以为我的文档同步您需要的文件了。

您可以通过点击 可求者点击 进入到设置界面来获取到有效的地址,例如: "ftp://10.0.2.208:20000"或"http://10.0.2.208:80"字样(如出现"无Wi-Fi 连接"字样,请检查您的网络连接)。如果图标为 则服务

关闭,该状态下可以节省您 iPhone 或 iPod touch 的 电池资源。

MAC OS

在运行了我的文档之后,按下列步骤进行连接:

在 Finder 上点击右键,选择"连接服务器"。 或者在 Finder 或者桌面上按下快捷键 Command+K。

在其中输入我的文档的提供的有效地址并且点击 "<u>连接",例如:"ftp://10.0.2.208</u>:20000"。

或者打开浏览器,在地址栏中输入 http 服务器的地址,如: "http://10.0.2.208",然后点击回车。

Windows

打开计算机(我的电脑),在上方的地址栏输入ftp服务器的地址,如"ftp://10.0.2.208:20000",点击回车。

或者打开浏览器,在地址栏中输入 http 服务器的地址,如:"http://10.0.2.208:80",点击回车。

这样您就可以添加、删除、上传、下载文件了。

●功能小贴士

我的文档支持查看文件的格式有:

- Microsoft Office (Word, Excel, PowerPoint) .
- ◆ HTML 网页。
- ◆ PDF 文档。
- ◆ TXT 文档
- ◆ 图片: BMP、JPG、PNG、GIF、TIF、TIFF。
- ◆ 音频: CAF、MP3。

我的文档为您提供了快速弹出菜单。

当您在文件夹目录中其中一项向右轻滑一下,就会弹出一个隐藏的右键菜单,帮助您快速对该文件进行复制、移动、删除、重命名、压缩和发送邮件等操作。

我的文档为您提供了多文件管理途径。

点击文件夹目录右上角的操作按钮,您可以对多个文件进行复制、移动、删除、压缩、发送邮件等操作。

我的文档支持对图片的缩略图显示。

在文件列表中,图片以缩略图显示。您也可以更 改成默认图片图标,以使文件列表显示顺畅。

My Documents

Introduction

My Documents helps you store, manage or scan files in iPhone or iPod touch. You can connect My Documents with your computer without any other softwares. Just like a sharing folder, you can not only scan, upload and download files you need, but also share them with others.

- My Documents supports creating folders, taking photos, and taking videos. My Documents can append photos and videos from local library.
- My Documents supports you in displaying many kinds of files and searching files.
- My Documents can help you manage files, such as deleting, moving, copying, compressing and uncompressing files and so on, and support you in sending emails.
- My Documents provide build-in browser to browse the website, and download files you like.
- My Documents can be connected with your

computer by supported online services, such as HTTP and FTP. Connecting My Documents with your computer in the same network, you can scan files by entering the link address of which produced by My Documents in Explorer or Internet Explorer.

- Through My Documents you can print webpages, pictures, documents and so on in your iPhone or iPod touch by a computer which is in the same network with your iPhone or iPod touch, but the premise is that the computer is connected with a printer.
- My Documents supports distinguishing two-dimensional codes. It's easy for you to browse the website and download the files by distinguishing hidden information through camera of your equipment.

Connecting

General

If the network is available, My Documents can generate two kinds of link address automatically which are ftp and http. You can synchronize or manager your files by any one of them.

You can connect to My Documents by any computer. What you need is keeping your computer, your iPhone or iPod touch in the same network. We provide two examples of operating systems, MAC OS, Windows.

Configuring the network

Choose iPhone's "Settings" application.

Click on WLAN.

If WLAN is Off turn it On.

Choose a network.

If your network is connected, you can see icon in the status bar.

Now you are ready to start uploading files.

You can get the correct address by tapping Wi-Fi Status

lcon or going to settings in My Documents, for example "ftp:// 10.0.2.158:20000" or "http://10.0.2.158" (PS: if "No Wi-Fi connecting" appears, please check out your network connecting). If the service is closed, the icon will change into this ... In this situation, your electric quantity will be saved.

MAC OS

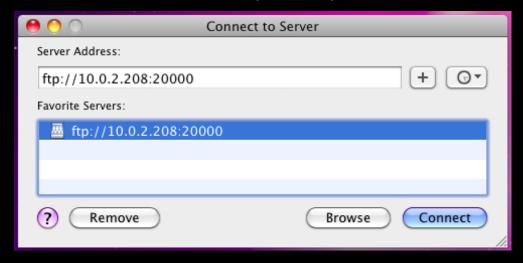

After launching My Documents connect to it by following those steps:

Right click on the Finder -> choose "Connect to Server". Or click on the desktop and press Command +K.

Type in My Documents the correct address and click

"Connect", for example "ftp://10.0.2.208:20000".

Or open the browser, type in the address in the address field, such as "http:// 10.0.2.158" and hit Enter.

Windows

Open explorer, type in the address in the address field, such as "ftp://10.0.2.208:20000", and hit Enter.

Or open the browser, type in the address in the address field, such as "http:// 10.0.2.158", and hit Enter.
